

Kleintours Newsletter

Dear Klein,

The British Ecuadorian Chamber recognized the "Chaski Route" social project. On November 25th the first British Ecuadorian Chamber **Charity Ball** took place where its main objective was to collect donations for projects inside the Corporate Social Responsibility focus. Eight projects were submitted by the Chamber members and Kleintours "Chaski Route" project was within the three finalists.

We feel deeply satisfied of the fact that **Salinas and Maqdalena communities** have progressed so positively -and in such a short time- in terms of sustainable development, becoming essentially self-sufficient in terms of the management of their many ventures.

This is an important recognition for our company and it encourages us to keep on working with our communities and we are sure our Partners will continue supporting this development given that tourism plays a progressively more important role in the development of communities, not only by generating jobs but also by revalorizing the communities' assets, their culture, traditions, food, and beliefs.

Celebrating the Foundation of Quito

The first week of December, Quito celebrates its Spanish foundation, which took place on December 6th, 1534. During this time the bullfight fair takes place with many of the most recognized "toreros" and a number of cultural activities and festivals.

All around the city "chivas" (colorful open buses) can be seen with a live band playing traditional *Quiteño* music and serving *canelazos* (warm cinnamon drink with alcohol), also there are also music festivals in plazas and churches; it's the opportunity to taste delicious delicacies of the Ecuadorian cuisine and to share with you our traditions, beliefs that are part of our culture.

Tomorrow December 6th, our offices will be closed due to this celebration; for emergencies with passengers traveling to Ecuador, contact our emergency numbers: (593-9)945-6205 / (593-8) 948-5967.
